

Catalogue

RETAKLIK
RETA-GLP3

30MG/2.4ML

- High efficacy in body weight reduction
- Improves insulin sensitivity
- Promotes fat burning via glucagon receptor activity

AVAILABLE NOW

RETAKLIK
RETA-GLP3

60MG/2.4ML

- High efficacy in body weight reduction
- Improves insulin sensitivity
- Promotes fat burning via glucagon receptor activity

AVAILABLE NOW

RETAKLIK
RETA-GLP3

15MG/2.4ML

- Advanced Weight Management Support
- Metabolic Performance Support
- Lean Body Composition Support

AVAILABLE NOW

KLIK-157
BPC-157

10MG/2ML

- Accelerates healing of tendons, ligaments and bone
- Protects and restores gastrointestinal lining
- Potent anti-inflammatory effects at injury sites

AVAILABLE NOW

KLIK-51MQ
5-AMINO-1MQ

100MG/3ML

- Increases basal metabolic rate and fat oxidation
- Improves mitochondrial health and function
- Potential to slow cellular aging processes

AVAILABLE NOW

KLIKIPAM
IPAMORELIN

10MG/2ML

- Selective GH release without increasing appetite or cortisol
- Improves muscle recovery and sleep quality
- Positive effects on body composition and skin elasticity

AVAILABLE NOW

KLIK-AHK
AHK-CU

100MG/3ML

- Skin Rejuvenation Support
- Collagen & Elasticity Enhancement
- Hair & Skin Health Support

AVAILABLE NOW

KLIK-GHK
GHK-CU

100MG/3ML

- Stimulates collagen and elastin production for skin rejuvenation
- Powerful antioxidant and anti inflammatory action
- Accelerates wound healing and improves hair growth

AVAILABLE NOW

KLIKJARO
TIRZ-GLP2

15MG/2.4ML

- Dual GLP-1 and GIP agonist for weight management
- Improves carbohydrate and lipid metabolism
- Reduces harmful visceral fat

AVAILABLE NOW

KLIKJARO
TIRZ-GLP2

30MG/2.4ML

- Dual GLP-1 and GIP agonist for weight management
- Improves carbohydrate and lipid metabolism
- Reduces harmful visceral fat

AVAILABLE NOW

KLIKJARO
TIRZ-GLP2

60MG/2.4ML

- Dual GLP-1 and GIP agonist for weight management
- Improves carbohydrate and lipid metabolism
- Reduces harmful visceral fat

AVAILABLE NOW

KLIK-TB157
BPC157 10mg+ TB500 10mg

20MG/2ML

- Accelerated repair of muscle and soft tissue injuries
- Increases cell mobility and migration to damaged areas
- Promotes angiogenesis (new blood vessel formation)

AVAILABLE NOW

KLIKLOW

BPC157 5mg+TB500 5mg+GHKCU 30mg

40MG/2ML

- Accelerates full-body healing
- Boosts collagen production
- Combination of peptides that accelerates healing and reduces inflammation

AVAILABLE NOW

KLIKLOW

TB500 5mg+BPC157 5mg+KPV 5mg+GHKCU 30mg

45MG/2ML

- Comprehensive repair of skin, muscle and tendons
- Reduces inflammation and pain associated with injury
- Stimulates collagen production and skin elasticity

AVAILABLE NOW

KLIKPV
KPV

10MG/2ML

- Potent and targeted anti-inflammatory effects
- Alleviates symptoms of skin and gut inflammation
- May assist in autoimmune and allergic conditions

AVAILABLE NOW

KLIK500
TB500

10MG/2ML

- Increases muscle flexibility and tendon elasticity
- Reduces inflammation and accelerates wound closure
- Enhances endurance and exercise recovery

AVAILABLE NOW

KLIK-TROPIN
SOMATROPIN

100IU/3ML

- Increases muscle mass, strength, and reduces body fat
- Improves bone density, skin, and hair health
- Boosts vitality and overall quality of life

AVAILABLE NOW

KLIK-PAM1295
(CJC-1295 NO DAC 10mg+IPAMORELIN 10mg)

20MG/2ML

- Extends GH release half-life for several days
- Sustained increase in GH and IGF-1 levels
- Significant improvement in body composition, energy, and sleep

AVAILABLE NOW

TESAKLIK
TESAMORELIN

30-60MG/3ML

- Selectively reduces visceral abdominal fat
- Improves lipid profile (cholesterol)
- Increases GH secretion without raising cortisol

AVAILABLE NOW

KLIK-CJC
CJC 1295 NO DAC

10MG/2ML

- CJC-1295 is a growth hormone-releasing hormone analog with an extended half-life, studied for sustained effects on growth hormone secretion patterns.

AVAILABLE NOW

KLIK-RP2
GHRP-2

5-10MG/2ML

- Strong GH release (stronger than GHRP-6)
- Significantly increases appetite (for those in need)
- Improves muscular strength and post-workout recovery

AVAILABLE NOW

KLIK-RP6
GHRP-6

5-10MG/2ML

- Potent stimulator of GH and ghrelin (increases appetite)
- Increases muscle mass and enhances recovery
- Supports gut health and digestion

AVAILABLE NOW

KLIK-TIDE
CAGRILINTIDE

10MG/2ML

- Supports appetite regulation
- Enhances satiety signaling
- Acts on amylin pathways to help reduce food intake and support metabolic control

AVAILABLE NOW

KLIK-MOTS-C
MOTS-C

10MG/2ML

- Improves insulin sensitivity and glucose metabolism
- Increases endurance by optimizing energy metabolism
- Protects against age-related cellular stress

AVAILABLE NOW

KLIKVIP
VIP

10MG/2ML

- Potent Vasodilation & Bronchodilation
- Neuroprotective & Anti-inflammatory Effects
- Immune Modulation & Pulmonary Support

AVAILABLE NOW

KLIKMT2
MELANOTAN II

10MG/2ML

- Melanotan II is a synthetic analog of alpha-melanocyte stimulating hormone, researched for its effects on melanocortin receptors and various physiological responses.

AVAILABLE NOW

KLIKMT1
MELANOTAN I

10MG/2ML

- Promotes a natural-looking bronze glow.
- Supports gradual melanin production.
- Helps achieve a more even tan with less UV exposure.

AVAILABLE NOW

GLUTAKLIK
GLUTATHIONE

2000MG/3ML

- Master antioxidant (neutralizes free radicals)
- Supports liver detoxification functions
- Promotes skin health, brightening and immune support

AVAILABLE NOW

KLIKSS31
SS-31

10MG/2ML

- Protects mitochondria from oxidative stress and damage
- Improves cellular function in muscle, heart, and brain
- Increases endurance and reduces cellular fatigue

AVAILABLE NOW

RETAKLK 2.0
RETATRUTIDE + CAGRILINTIDE

35MG/2.4ML

- Synergistic effect for superior weight loss
- Slows gastric emptying and reduces appetite
- Significant and sustained reduction in BMI

AVAILABLE NOW

KLIKPEPTIN
KISSPEPTIN-10

10MG/2ML

- Master Regulator of Reproductive Hormones
- Fertility Support & Libido Enhancement
- Pubertal Development & Menstrual Cycle Regulation

AVAILABLE NOW

KLIKEPILON
EPITALON

20MG/2ML

- Telomere Support & Cellular Longevity
- Circadian Rhythm Regulation & Sleep Quality
- Pineal Gland Support & Antioxidant Protection

AVAILABLE NOW

KLIKSELANK
SELANK

10MG/2ML

- Selective Anxiolytic Without Sedation
- Memory Enhancement & Neuroplasticity
- Immune Modulation & Mood Support

AVAILABLE NOW

KLIKSLUP332
SLU-PP-332

10MG/2ML

- Enhances mental endurance and memory function
- Increases energy production in brain cells (mitochondria)
- Improves neuroplasticity and learning capacity

AVAILABLE NOW

KLIKSEMAX
SEMAX

10MG/2ML

- Cognitive Enhancement & Neuroprotection
- Stress Resistance & Mental Clarity
- Anxiolytic & Mood Modulation

AVAILABLE NOW

KLIKAOD
AOD9604

10MG/2ML

- Stimulates fat burning without anabolic effects
- Improves lipid metabolism
- May support cartilage repair

AVAILABLE NOW

KLIK-PT141
PT-141

10MG/2ML

- Increases libido via central nervous system action
- Treats erectile dysfunction and hypoactive sexual desire
- Rapid onset, non-visually dependent effect KLIKROPIN

AVAILABLE NOW

KLIKIGF-1
IGF-1 LR3

1500MCG/1.5ML

- Supports muscle growth and faster recovery
- Stimulates cellular regeneration
- Enhances strength and performance

AVAILABLE NOW

ALPHAKLIK
THYMOSIN ALPHA 1

5-10MG/2ML

- Strengthens the immune system
- Supports faster recovery and healing
- Helps regulate inflammation and overall body balance

AVAILABLE NOW

KLIKHEXA
DIHEXA

10MG/2ML

- Enhanced Memory & Learning Support
- Improved Focus & Mental Clarity
- Advanced Neural Connectivity Support

AVAILABLE NOW

KLIKCAR
AICAR

50MG/1ML

- Improves muscular and cardiorespiratory endurance
- Stimulates fat burning as an energy source (mimics exercise)
- Increases energy efficiency in muscle cells

AVAILABLE NOW

KLIK-DSIP
DSIP

10MG/2ML

- Deep Sleep Support
- Relaxation & Stress Balance
- Recovery & Daily Vitality

AVAILABLE NOW

KLIKFRAG
IGH FRAGMENT 176-191

10MG/2ML

- Accelerates fat burning
- Enhances metabolism
- GH Fragment (176-191) studied for increasing lipolysis and reducing lipogenesis.

AVAILABLE NOW

KLIKZEMPIC
SEMAGLUTIDE

0.25-0.5-1-2MG

- Substantial and sustained weight reduction
- Improves glycemic control (for Type 2 Diabetes)
- Reduces cardiovascular risk factors

AVAILABLE NOW

KLIKSERM
SERMORELIN

5-10MG/2ML

- Stimulates natural Growth Hormone release from pituitary
- Improves body composition (muscle/fat ratio) and energy
- Enhances sleep quality and recovery

AVAILABLE NOW

V-RETA

RETA-GLP3

Dose Options
15mg, 30mg, 60mg

- High efficacy in body weight reduction
- Improves insulin sensitivity
- Promotes fat burning via glucagon receptor activity

V-PT141

PT141

Dose Options
10mg

- Increases libido via central nervous system action
- Treats erectile dysfunction and hypoactive sexual desire
- Rapid onset, non-visually dependent effect KLIKROPIN

V-157

BPC157

Dose Options
10mg, 20mg

- Accelerates healing of tendons, ligaments and bone
- Protects and restores gastrointestinal lining
- Potent anti-inflammatory effects at injury sites

V-MOTS-C

MOTS-C

Dose Options
10mg, 20mg

- Improves insulin sensitivity and glucose metabolism
- Increases endurance by optimizing energy metabolism
- Protects against age-related cellular stress

V-MT2

MELANOTAN 2

Dose Options
10mg

- Melanotan II is a synthetic analog of α -MSH, researched for its interaction with melanocortin receptors.

V-MT1

MELANOTAN I

Dose Options
10mg

- Promotes a natural-looking bronze glow.
- Supports gradual melanin production.
- Helps achieve a more even tan with less UV exposure.

V-SELANK

SELANK

Dose Options
10mg, 20mg

- Selective Anxiolytic Without Sedation
- Memory Enhancement & Neuroplasticity
- Immune Modulation & Mood Support

V-SEMAX

SEMAX

Dose Options
10mg, 20mg

- Cognitive Enhancement & Neuroprotection
- Stress Resistance & Mental Clarity
- Anxiolytic & Mood Modulation

V-500

TB500

Dose Options
10mg, 20mg

- Increases muscle flexibility and tendon elasticity
- Reduces inflammation and accelerates wound closure
- Enhances endurance and exercise recovery

V-GHK

GHK-CU

Dose Options
100mg

- Stimulates collagen and elastin production for skin rejuvenation
- Powerful antioxidant and anti inflammatory action
- Accelerates wound healing and improves hair growth

V-TESA

TESA

Dose Options
10mg, 20mg

- Selectively reduces visceral abdominal fat
- Improves lipid profile (cholesterol)
- Increases GH secretion without raising cortisol

V-KPV

KPV

Dose Options
10mg

- Potent and targeted anti-inflammatory effects
- Alleviates symptoms of skin and gut inflammation
- May assist in autoimmune and allergic conditions

V-KLOW

TB500+BPC157+KPV+GHKCU

Dose Options
80mg

- Comprehensive repair of skin, muscle and tendons
- Reduces inflammation and pain associated with injury
- Stimulates collagen production and skin elasticity

V-GLOW

BPC- 157+TB500+GHK-CU

Dose Options
70mg

- Accelerates full-body healing
- Boosts collagen production
- Combination of peptides that accelerates healing and reduces inflammation

V-51MQ

5-AMINO-1MQ

Dose Options
50mg

- Increases basal metabolic rate and fat oxidation
- Improves mitochondrial health and function
- Potential to slow cellular aging processes

V-TIDE

CAGRLINTIDE

Dose Options
10mg

- Supports appetite regulation
- Enhances satiety signaling
- Acts on amylin pathways to help reduce food intake and support metabolic control

V-FRAG

HGH FRAGMENT 176-191

Dose Options

10mg

- Accelerates fat burning
- Enhances metabolism
- GH Fragment (176-191) studied for increasing lipolysis and reducing lipogenesis.

V-NAD+

NICOTINAMIDE ADENINE DINUCLEOTIDE

Dose Options

500mg

- Supports cell repair
- Enhances mental clarity
- Supports cellular repair and enhances mitochondrial function to improve overall vitality

V-IPAM

IPAMORELIN

Dose Options

10mg, 20mg

- Selective GH release without increasing appetite or cortisol
- Improves muscle recovery and sleep quality
- Positive effects on body composition and skin elasticity

V-PEPTIN

KISSPEPTIN-10

Dose Options

10mg

- Master Regulator of Reproductive Hormones
- Fertility Support & Libido Enhancement
- Pubertal Development & Menstrual Cycle Regulation

V-VIP

VIP

Dose Options

10mg

- Potent Vasodilation & Bronchodilation
- Neuroprotective & Anti-inflammatory Effects
- Immune Modulation & Pulmonary Support

KLIKSS31

SS-31

Dose Options

10mg, 20mg

- Protects mitochondria from oxidative stress and damage
- Improves cellular function in muscle, heart, and brain
- Increases endurance and reduces cellular fatigue

V-PAM1295

CJC-1295 NO DAC + IPAMORELIN

Dose Options

20mg, 40mg

- Extends GH release half-life for several days
- Sustained increase in GH and IGF-1 levels
- Significant improvement in body composition, energy, and sleep

V-DSIP

DSIP

Dose Options

5mg, 10mg, 20mg

- Supports deeper restorative sleep
- Promotes mental relaxation and calmness
- Helps improve recovery and wakefulness

V-TB157

BPC157 +TB500MG

Dose Options
20mg, 40mg

- Tissue Repair
- Collagen Remodeling
- Tendon Research

V-EPIILON

EPITALON

Dose Options
10mg, 20mg

- Circadian Rhythm
- Telomerase Activity
- Cellular Aging Research

V-GLUTA

GLUTATHIONE

Dose Options
2000mg

- Antioxidant Activity
- Oxidative Stress
- Cellular Protection

V-AHK

AHK-CU

Dose Options
50mg

- Hair Follicle Research
- Follicle Growth
- Cellular Protection

V-CJC

CJC-1295

Dose Options
10mg

- Growth Hormone Signaling
- IGF-1 Pathways
- Metabolic Research

RETAKLIK

Injection pen containing 15mg, 30mg, 60mg of Reta-GLP3, GIP, GLP-1 & Glucagon Receptor Agonist. For research and clinical purposes only

15MG | 30MG | 60MG

RETATRUTIDE

About This Product.

Reta-GLP3 is a medicine for weight loss and weight maintenance that contains the active substance Reta-GLP3. It is similar to a natural hormone called glucagon-like peptide-1 (GLP-1) that is released from the intestine after a meal. Reta-GLP3 works by acting on receptors in the brain that control your appetite, causing you to feel fuller and less hungry and experience less craving for food. This will help you eat less food and reduce your body weight.

- Triple Hormone Agonist: Simultaneously activates GLP-1, GIP, and glucagon receptors
- Long-lasting Effects: Longer half-life for stable blood levels
- Enhanced Metabolic Benefits: Improves blood glucose levels

Specifications

Total Content
60mg

Purity
>99%

Format
Pre-filled Injection Pen

Storage
2-8°C Refrigerated

Dose Options
15mg, 30mg, 60mg

Research Applications

This product is designed for advanced research in the following areas

Weight loss and weight maintenance research

Metabolic syndrome studies

Appetite suppression mechanisms

Energy expenditure analysis

KLIK GLOW

Self-injectable pen containing a combined 70 mg formulation of KLIK GLOW — a multi-peptide blend of BPC-157 (Body Protection Compound-157), TB-500 (Thymosin Beta-4 fragment), and GHK-Cu (Copper Tripeptide-1).

40MG

BPC157+TB500+GHKCU

About This Product.

KLIKGLOW combines three extensively studied peptides researched for their complementary roles in tissue repair, cellular signaling, and extracellular matrix support. BPC-157 has been studied for its involvement in vascular support and connective tissue integrity, while TB-500 is researched for its role in cell migration, actin regulation, and tissue regeneration processes. GHK-Cu, a naturally occurring copper peptide, has been widely studied for its role in cellular communication, collagen synthesis pathways, and skin and tissue remodeling processes.

Together, this multi-peptide formulation is designed to support broad cellular recovery pathways by acting across tissue repair, structural support, and regenerative signaling mechanisms.

Key Research Focus Areas

- **KLIKGLOW:** Studied for its role in supporting tissue repair, angiogenesis, and regenerative signaling pathways
- **KLIKGLOW:** Researched for its involvement in tendon, ligament, muscle, skin, and soft-tissue recovery processes
- **KLIKGLOW:** Investigated for its contribution to cellular protection, extracellular matrix support, and connective tissue integrity

For research and clinical purposes only.
